

What our clients say...

As an ISC Approved cabling contractor, KRB Installations have enabled us to confidently deliver cabling services to our clients. Not only do they carry out their on-site services with great professionalism, but they keep us informed of project progress and changes at all times. *Managing Director – ISC Networks*

KRB Installations have carried out work for the Mantles Group over many years. Their work has always been of an excellent quality, and they are very helpful and reliable. *Managing Director – Mantles Group*

Our philosophy is simple...

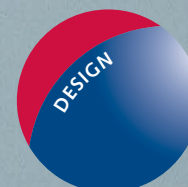

KRB Installations deliver professional, cost effective installation services of the highest quality to commercial and industrial clients.

...and our expertise is second-to-none

If your business demands fast and reliable distribution of information it is vital that you implement an infrastructure that will deliver. At KRB we offer professional, cost effective services that enable organisations of any size to implement a flexible, scaleable and manageable information technology cabling infrastructure that caters for their needs today and into the foreseeable future.

Our philosophy is to offer a unique mix of quality, professionalism and price that secures your trust in us time and time again. Whether you are relocating, re-structuring or just want to upgrade your existing systems, let KRB apply its experience and expertise to minimise disruption and help you to reap the maximum benefit from your investment.
